You can :-Double c.l.i.c.k to view the log details

Press DEL on your keyboard to delete the log

Press Right click to see menu to automatic open telegram session and open discord session

GIF [\(Click to View\)](#)

FILTER

Here you can filter and extract specific logs :-

Browser Filter

This will filter only browsers data by specific keyword

Application Filter

This will filter all programs

Meta Mask

This feature will try to load and crack all meta mask logs, also it will show you password and recovery phrase and wallet address and the balance of the wallet address. The crack rate is very high

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
