copythecat - February 9, 2023, 9:07 am

Looking to buy steam gift cards and/or csgo skins. Looking to pay between 60-75% market price for skins based on the item, not looking for special floats etc.,

Will pay a flat 70% for steam gift cards.

Payment method: LTC preferred; crypto

Feel free to hit me up with an offer if you are looking for a particular price, even if we can't reach an agreement I will respect your decisions. Thanks!
