“With any Nintendo Switch™ Online membership, access a collection of Game Boy™ games to play anytime, anywhere! Face off against Wario in Super Mario Land™ 2 - 6 Golden Coins™ and thwart an intergalactic menace in Metroid II - Return of Samus as you revisit (or discover) these classics games.

Choose from Game Boy, Game Boy Pocket, and Game Boy Color screen styles to play these games with your preferred flavor of retro flair. Suspend points make it easy to take a mid-dungeon break in of The Legend of Zelda™: Link's Awakening DX™ and with online and local wireless 2-player multiplayer you can go block-vs-block in Tetris® two-player mode.”

Worth to check out if you have a membership already, but probably not something worth paying for on its own unless you really wanted to!

I'm excited for the games they have planned as well. If you want to take a look at everything current out - or will be coming here you can find it [here](#).

Pretty cool to see them dropping more games for their Nintendo Switch Online membership. That will be 191 games available which is pretty darn good I think.

I still won't subscribe to the switch online though as I have just about the entire NES/SNES/N64/Sega Genesis libraries on my Raspberry Pi/Retro Pi.

Yea for me I was already paying the fee, so it's nice to get even more stuff. Here is hoping they really start importing more games over.

This is hype! Now I can finally get more than just online Pokémon trading out of my switch online lol
