? this is unreal.. did you win anything at all? \$10-\$100? or do they just wait for one "lucky" user to claim it all, which is probably themselves...

Also, do u need to verify anything before u can open the box?

I did manage to get total 18\$ in crypto for 6 invites.

You need to verify your email or phone number to open the box.

If they're paying \$3 per referral, it'll take 3333 registrations to get \$10k, which isn't realistic at this point even if they do pay out.
