So there's a DeviantArt user that specializes in TF/TG comics that has a post removed/blocked. However, this particular comic doesn't exactly feel complete without this particular page available. You don't have to make it public again, just recover the image file and slip it to me. The user in question goes by "Escafa", and the image to recover is page 11 of his "Princess's Diary" comic.

P.S. This is my first go at something like this, so I apologize for not being able to share the links you may need to get it.

P.P.S. I can't provide any payment, except maybe a trade where I can give you a custom album cover of your choice. (It's a "Death Battle!" thing)
