Thread: [1# RAT/BOTNET Mentorship Service | Cheap | Earn Your Money back | BTC,BCH,XMR](#)

CrypterHQ - February 10, 2023, 4:58 am

Intro: Rats are often used to monitor a live event or past on a target, Botnet mentorship provides users with expert guidance, knowledge, and experience in managing these networks. By leveraging the insights of a mentor, users can develop strategies to maximize the potential of their botnets and minimize the risks of cybercrime. Botnet mentorship is essential for those seeking to use their botnets responsibly, securely, and efficiently.

Expectation: I will provide expert guidance to help you create a comprehensive strategy for managing a RAT/Botnet. I will show you how to set up and tool of your own RAT/Botnet, as well as how to spread it for new installations and automate processes. I will provide advice and demonstrate real-world examples of how to effectively protect against threats and vulnerabilities. With my assistance, you will gain the knowledge and proficiency necessary to manage your botnet operations efficiently and productively. Furthermore, I will guide you through the steps to ensure you make a profit on your investments. My services are tailored to just 3 select individuals, and no fancy sales pitch is necessary.

This program is designed to not only give you the foundation of knowledge and skills you need to make smart, profitable decisions but also arm you with the tools to identify new opportunities and capitalize on them. I am certain that if you apply yourself, embrace the tried and tested methods this program provides, and build upon what you have learned, you can achieve success.

Q: I have my own RAT, can you set it up for me?

A: Absolutely, send me the files or give me TeamViewer access and I will set it up for you.

Q: Can you make my binary's FUD / Crypt my stub?

A: For the time being I cannot, this might change in the future. I will add it to the list with what I offer if I decide to do so.

Q: Are you able to set up DDOS botnets such as Mirai and other QBots?

A: I won't do it against the terms of the forum.

Q: Can you set up my RAT on TOR?

A: Yes I can, as long as your Software allows you to do so.

Tos: It's not my responsibility what you do with RAT I've set up for you.

This is for Educational Purposes only. I won't be committing fraud with you so don't ask for help

All tools I will be sharing will be for educational research for your advancement. Full refund if only we are not able to hold the deal on my side.

I have the right to deny you my service

You seem like a guy I used to see on HF back around somewhere in 2018. Now, I am not completely sure if you're the same guy or not.

Anyways, GLWS.
