All praise be to God, it's great to have such a community of likeminded individuals. I can't wait to see what comes with the future of TGS, and I wish everyone the best of luck in this event!

DashPHP - February 13, 2023, 8:45 pm

What a high fkin quality contest/giveaway. I'm amazed and probably one of the best I've seen.

Can't wait to participate!!!

HF is the best forum I've ever been a part of for the past decade and more. Omni has been working tirelessly to make & keep this place a great place to be.

Hands down to him & to the other members of HF.

Good luck to all participants!

Cooligan - February 13, 2023, 9:23 pm

Now this just makes me happy to see.. [Pentatonix](#) I always have my eyes peeled for the next great group, or at least what seems to have the potential to be one, and I see it here with The Gold Standard with this thread alone.

The amount of effort just in making the thread (trust me I know, I love making big fancy threads like this too lol), the amount of prizes you guys are giving away, and the structure of the event/giveaway overall really puts out a statement saying "we're going to be doing things differently than the typical group" and that's it right there. Not to mention those sexy group graphics, helps the thread quite a bit. :P

With Lions League, Warriors, Pink LSZ, and now TGS..we got some great groups on HF at the moment, that's for damn sure. ?

The number I'm picking for Day #1: 143

Best of luck to all other entrants! ?

DemonAsylum - February 13, 2023, 11:30 pm

Absolutely incredible giveaway and that I can't wait to see how unfolds. It's big community things like this that are one of the many reasons I love HF. Others include but are certainly not limited to the many amazing members I've met and some of which I've created good friendships with, the platform it provides to make some money from, and the vast amount of knowledge there is to be obtained for a number of things due to the many knowledgeable members and that are willing to share as well as help.

theDuke - February 14, 2023, 12:01 am

Our first event is now live! Please visit the thread here and submit your guess.

Koyote - February 14, 2023, 2:28 am

Such a great idea for a series of giveaways, awesome group! My reason for loving HF is that it's given me a community of people to talk to, share ideas with, potentially earn from and with, empower others with knowledge I can share, and that it's a generally fun place to just hang out and virtually socialise. I joined a while back now and I've been hooked ever since for all those reasons!

clivensmith - February 14, 2023, 2:59 am

Thank you the giveaway. Such an awesome idea.

I love HF due to the community, support, willingness of others members to help, learn a lot of new stuff, reading about others in the lounge, enjoy playing the games and spending and earning bytes.

Dorrance - February 14, 2023, 4:37 am

Nice giveaway layout, hackforums opened the mind of young me.

Cap - February 14, 2023, 6:13 am

I've been on HackForums for a chunk of time now. I've always loved it here simply based on the community. It's tight niched and everyone here is simply awesome. You can learn almost anything as well - a boatload of content. For me though, it's the interactions with everyone. You can gain some close friends and it's amazing.

Thanks again for the contest.

Eran - February 14, 2023, 6:31 am

It's delightful to see a new group contribute with such a HQ event as a way to give back to the community. Great work to everyone involved and good luck to all participants!

A few words on why I love HF. You can find my testimonial thread here <https://hackforums.net/showthread.php?tid=6210808> for a more detailed version.

HF is a community that has taught me a lot, from ways to making money online all the way to growing as a person. Most of the members are very welcoming and fun to talk to, and you can find a variety of personalities. Multiple sections allow different people to talk about various subjects. Whenever I've needed support, HF and Warriors have been there for me, I can always come back to my second home when things aren't going my way and get off it with some great insight and use it to better myself as a person. I should also mention that the byte games are really fun and collecting awards too!

Smexy - February 14, 2023, 7:55 am

Thanks for this amazing well put together contest, the first one is most interesting and I already know who I will nominate.

I love HF because I've made a lot of friends here and also learned a lot from other members :)

Djangoo - February 14, 2023, 8:18 am

Wow what an awesome contest. Djangoo would love to participate ?.

I love HF because this is the place where I started learning about Cryptocurrency and also earned a good amount of it. Also, I made a few friends but some of them are no longer on HF such as itcorp, I really miss him :(.

The guessing event lasts for 2 days and there is 1 day left. Please post your guess on the other thread. This thread is only for announcement and information. You can also earn an extra entry for the grand prize by replying to this thread explaining why you love this forum. You also earn an entry for each event you participate in.

The next event, trivia, will begin on February 16th at around 2:00 PM EST. For each event there will be a separate thread.

Hope this helps.

Sorry, missed the part to choose a number. So, here's my post to enter again.

I choose the number 143, cuz it's Valentine season. We have to spread some love. <3

HF is the best forum I've ever been a part of, for the past decade and also I'm sure it's gonna be the same for the several years to come. Omni has been working tirelessly to make & keep this place a great place to be.

Hands down to him & to the other members of HF for making this community such a wonderful place. You guys are rock solid! Keep rocking!

Good luck to all participants & thanks for the giveaway!

I love HackForums? Do I? I mean it's certainly unique, and not like any other forum, only been here 18 days now.

The market potential and amount of software on this forum is astounding, love it for that.

Cooligan - February 17, 2023, 2:52 pm

Snagging that extra entry real quick:

∴. Why I love HF?

I love HF for oh so many reasons it'd be hard to list them all in one post. So I'll sum it up.

I love the community here, the members are truly what makes HF what it is. Omni is the other half of that of course, but without our amazing community, we wouldn't be the HF that we all know and love.

I've been roaming the web for years upon years, and all during that time I've never come across another website in general, never mind just forums, where I could spend hours upon hours per day,

everyday, being active posting and browsing around all without getting tired of it. It's been almost 10 years now since I joined HF and I'm still not tired of it. :)

Oh, and not to mention the groups. Ever since I discovered what official groups on HF actually were, I was hooked immediately. There's no other place where I've been a part of so many different groups and small communities, and I have HF to thank for it all.

Here's to the future of HF and all the awesome years, members, and memories ?

[Komodo](#) busts his ass and writes these incredible in depth tutorials. As well as so many other members, the blogs, we talk about cars, politics, crypto, science, games, there's something for everyone. The community is high quality compared to other forums, most members are extremely friendly. I enjoy all the time I spend in convos talking to people from around the world and getting their views on different subjects. That's why I recently started buying awards to try to give back to Omni for all he's given us here.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,

Stanley

We are sorting everything out and tallying up all the entries and names. We will post the winners here on this thread, as well as possibly creating a megathread announcing the winners. Hopefully tomorrow! Stay tuned. I'll be sending the full list of winners and which awards to Omni after the grand prize is drawn.
