Thread: [Looking for an individual to help direct traffic to Onlyfans Models](#)

Walter White - February 14, 2023, 6:17 am

All models used in this operation are exclusively working with me. These are not leaks or anything of that nature. I am in close contact with these models as their sole agent.

Title basically says all. I'm looking for someone who has a unique niche in directing traffic to my models OF pages, as well as other social medias. My ideal worker would be versatile in different forms of traffic and not limited to just traffic to OF. Other target areas would include Twitter, IG, and Tiktok. My operation is picking up beyond expectations and I'm in need of an experienced individual or individuals to help direct traffic as it's becoming too much work for just myself.

You will need to explain to me your directive as well as provide evidence of authenticity. I do not need SMM botting. I am looking for genuine traffic.

I have a few relatively new models that I would use as a trial run to make sure you are who I need for the job.

I am able to offer pay during a trial run in certain circumstances so you do not feel you are being taken advantage of.

Terms:

Ideally looking for 21+ workers. ID verification may be required to verify your age. Absolutely no minors. By initiating contact with me you agree to be 18 years of age or older.

By initiating contact with me you also agree to not use any Botting, Fake accounts, Fake traffic, or anything other than genuine traffic caused by real human beings operating and navigating the internet on their own behalf.

Any breach of these terms and conditions will terminate our business relationship and you may have legal action taken against you for any damages or other negative impacts on my operation.

Terms are subject to changes or additions.

If you agree to abide by these terms and feel you are right for the job, DM me.

I can create, verify and manage Bumble accounts and drive traffic to your funnel of choice. My TG is earl_nightingale

I am not willing to do an ID verification on me tho.
