?GITHUB STUDENTS PACK FOR FREE METHOD

College Name - > Tyler Junior College

STEP 1: This College Edu gives Github Student Pack without Student ID Card Verification

STEP 2: Use USA IP to Apply to College

STEP 3: College Reply time varies between 24 hours and 72 hours

STEP 4: So You need to be patient and wait for the Edu Email to come

STEP 5: After you receive the confirmation letter from the college then in the confirmation letter you will find something called the A-Number.

STEP 6: Then open the website (myapacheaccess . tjc . edu/) in any browser and enter your A-Number in username.

STEP 7: For the password you need to enter TJC followed by MMDDYY.

Here MM = Birth Month DD = Birth Date YY= Last Two Digits of Birth Year

STEP 8: Once you login to the website you will find a option called 'Email' .

STEP 9: Click on that option and then you will be redirected to Gmail where you can see that you have been logged into the Edu Email.

STEP 10: For getting Github go to github.com and click create account.

STEP 11: In the email section enter the edu emails username (find it in gmail tab) followed by @email . tjc . edu. Then put your preferred username and password.

STEP 12: Now go to education . github . com/offers and click 'I am a student' and you will find student application page.

STEP 13: You will find Green Tick next to College Name and when you click Continue/Apply.

STEP 14: You will find that Github Student Pack is directly activated and you can easily use all the benefits of the Pack.

THANKS....

dang bro, thats an intresting method

mhnasRat - February 22, 2023, 9:10 am

Nice share bro ,thanks

xiaobai - February 23, 2023, 7:21 pm

Thanks for sharing, I hope I can get an education mailbox for free server application

Harrap - November 15, 2023, 7:36 am

Thanks for sharing, I hope I can't get an education mailbox; its not work for me
