worldy - April 15, 2025, 2:12 am

Be careful with this seller. He has several waiting customers and long delays in providing service. I bought Apple One Lifetime for 75\$, he provided 2 months of service with Indian currency (costs about ~6\$) with 1 month delay between purchase and delivery. After that I waited again 4 months for a fix and still no response. Hope customers will be safe on this site.

ohmybad - April 15, 2025, 1:46 pm

it says he no longer on hackforums. I wonder what other forums is he on?
