Thread: [Anyone know how to get unreleased TV shows?](#)

Pimping - February 16, 2023, 7:27 pm

Hi so im not sure if even this is possible but there is show I like and hate having to wait every week to watch new episode

im wondering anyway to see the episodes before it airs? thanks

I seriously doubt you can watch something before it airs on TV; episodes are usually kept safe to avoid leaks or piracy.

North Korea hacked Sony to steal movies and data, so it's possible. However, the chance of being detected is much higher than finding a system belonging to the target network (pun intended), compromising the system from the Internet, or social engineering your way onto the system, and successfully exfiltrating the targeted data without triggering an IDS.
