This is my promotional video for the contest. I did my best to show all the features of the forum so new users can navigate easily.

Any feedback is appreciated. Thanks!

Good video, but the length scared me.

I don't know if young people have that kind of attention span anymore! :D

I like it, it's really informative!

I appreciate all the comments from everyone, I did not expect this much positive feedback! It's the first video I ever edited and now I'm looking for more projects as I had fun making this one!

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

Cool video!

Improvement opportunities:

- Subtitles
- Real voiceover
- Activate Windows in the bottom right hand corner watermark

This is a work of art. Secured marketplace and knowledge sharing centre for users across the world. Hackfourms takes the top spot in world wide web.

Thank you for the advice!

Subtitles - I had a feeling that the contest would be closed by the time I finished the video, knowing I had incredibly comically bad luck at the time, so I thought it would be a waste of time.

Real voiceover - This is also something I originally intended to do. But as mentioned before, I thought I wouldn't have enough time. Would definitely make the video more generic! Ironically the contest is still going on but it's all cool!

Activate Windows - Haha, I knew this one would catch comments, especially since I'm advertising such a forum! To be honest, it doesn't bother me since I am getting a new PC soon so I cba to fix anything on this one.

Thanks for the words! I hope we only go up from here.
