Thread: [Pentesting for Beginners - Short Stories - Learn to make money with legal hacking.](#)

Mr. Robot - February 18, 2023, 6:49 pm

I have spent a LOT of time working on optimizing the stories in here to be as to the point as possible.

The methods discussed and touched on are enough to get you easily a liveable income from bug bounties, I have not wasted your time or my time by recreating the wheel. My intentions are simple - teach you what you need to know and give you something you can come back to if you ever forget.

With my book and google at your fingertips - you have more than what you need to start your journey and go further with it in the world of penetration testing and hacking.
