Can you suggest someone from YouTube who are very informative in terms of crypto news, or like technical analysis, etc?

Crypto Dozhd - New Crypto youtuber, few videos, but what he has made so far I think is good. New video coming out soon from what I have heard.

there's no other channel that's as informative as Coin Bureau. He goes in depth about the tech side of things. Everyone else is a shill.

Don't worry, I will still do my research just want some opinions and listen to others and do a comparison. Thank you for the heads up

I stopped watching Crypto youtubers since I honestly feel like most of them are just shilling some shitcoin that they invested and want to profit on more.

Also whenever I hear crypto youtubers, I keep hearing "TRUST HE PUMP GUYS, RESPECT THE PUMP" from Ivan on Tech.

GruntStyl - February 22, 2023, 7:00 am

CryptoNick . He'll teach you everything you need to know about Bitconnect.

Lmao jk jk Not sure anyone will get the joke or not..
