Good morning, everyone: and happy Monday! I'm akhi. I love poetry, writing, reading, and art in general. I'm going to be judging your poems today and I wish you all the best of luck!

Here's an example of a poem I wrote that fits the topic, in case any of you are struggling to find inspiration.

You're different.

I've never heard your voice.
You have so much to say, still.
You rise above the noise.

You're different:
Unique.

I didn't know much,
And still don't,
But:
You found a place for me.

You're different,
So different.

The truth is:
You care.

Not about my weight,
face,
skin,

Or hair:
You care for my grace,
You care for my flair.

You're there.

You're different.

I hope to be woo'd by the words you guys put out for this contest. Remember:

The truth will tell itself.

Here's my entry, in image and plain text form!:

Spoiler ([Click to View](#))

Plain Text:

Spoiler ([Click to View](#)) In the depths of the internet's maze,
There lies a place with many great ways,
A forum where hackers meet and share,
A wealth of knowledge and some incredible flair.

HackForums is the name that they give,
A place where us techies virtually live,
Omniscient is the tog dog here,
A watchful eye, he's always near.

The forum is not just a place to hang,
But also to play a game called Hackúman,
Where we hatch out our eggs and grow our beasts,
Then fight all day and resist defeat.

The currency we use is called "bytes",

Earned through contributions and insights,
You can buy and sell, trade and gain,
A reward system that's not in vain.

If you're interested in the art of the hack,
Or maybe just want to give something back,
HackForums is the place to be,
Where knowledge flows so abundantly.

So come on in and take a peek,
Learn a thing or two, be unique,
And if you're lucky, you might just earn,
An award that's worth your time and concern.

LeetSpeed - February 20, 2023, 11:00 am

Here is my poem:

Hack forums, oh hack forums,
Where hackers come to play,
They post their tricks and tools,
And make us all dismayed.

They'll crack your passwords,
And steal your private files,
But don't worry too much,
It's just their hacker style.

They'll boast about their skills,
And brag about their hacks,
But if you're not careful,
You'll end up on their blacklist.

So be wary of hack forums,
And keep your security tight,
Or else you might just find,
Your website in their sight.

'Oga and Warkah'
thoughtful should be a lustful dragon,
the dragon comes from the inner-heart,
The lush forest of Oga origin is announced again,
eye witness the grave ward,
the dragon died and was beheaded 13,13 died in the tomb,
intention in the heart, blush again,
My servant is looking for alms.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

Cuthbert Is a Demon

The sky is blue, Cuthbert's eyes are red
He's smokin' that ganja, we've all been misled
Encouragin' 420, in his awards instead

I thought you didn't support the devil
You have an award as his head

Mental illness is real, I'm not denying that
Cuthbert your breath stank, here's a tic-tac
I'm just jokin', don't take this serious
Here's a tampon for the days on your period
As you can tell, red marks his soul
The devil has sent him, I keep tellin' y'all

For Cuthbert's a demon, with hidden intentions
Call me a twit again, you'll earn a suspension
For I will win, the battle I face
My ban hammer swung, sent him off to space
I earned a close, for abusing my power
But the demon is gone, his soul has been devoured

Thank you.

Hack Forums o' Hack Forums, where do I start?
Ever since I first saw you, it left quite the mark,
I joined for a quick fix, thinking my time would be thin,
But then you opened your doors, allowing me in.

Since day number one, I've felt more than welcome,
Which is especially strange, as it's a feeling oh so seldom,
From every thread I post, to every PM I send,
Throughout all these years, you've been a constant dear friend.

During a time in my life, where my mind wasn't truly mine,
You'd let me speak my truth, I even found others who were kind,
So grateful I am however big or small, HF was there to catch my fall,
Anytime I slid to all the hardships I hid, I always knew HF was there to call.

As I end this ode, similar to how it began,
I dedicate it to you HF, for you helped shape this man,
And last but not least, personally when it comes to me,
It was in 2013, I knew you were my online home to be.

DemonAsylum - February 21, 2023, 11:27 pm

Hackuman is the name of the game.

First get yourself an egg in order to play.

Incubate and feed it if you want it to hatch.

Lack of doing the former will leave it gone in a flash.

So what comes out of these eggs you might ask?

One of five unique Hackuman, all ready for any task.

Attack other Hackuman if you want to grow stronger.

Protect yourself well or you wont live much longer.

I have to be honest though, no matter how hard you try.

Your beloved Hackuman will always just die.

What happened? Someone killed it already?

A day is all it will take until it's breathing is left heavy.

Who is this person that so quickly struck me down?

Oh that's DemonAsylum, the best Hackuman player around.

No matter how many challenge him, he always ends up on top.

He's killed thousands of Hackuman and cannot be stopped.

You think you can defeat him? You think that you're safe?

By the time you start playing, you're already at your final resting place.

You don't stand a chance, there is no reason to try.

Just accept your fate and kiss your Hackuman goodbye.
