Thread: [Looking for someone experienced in creating plex servers](#)

KRAT?S - February 20, 2023, 10:10 am

Hola amigos,

Just like the title says, Im looking for someone experienced in creating a plex server and maybe automating movie and show requests through discord. I plan to make one of the biggest libraries in Asia/Eu but need some guidance.

drop me a pm, or message me on dc

I'm pretty experienced with plex and setting up RSS feeds, but you'd probably need a custom bot made to fetch specific movies/shows.

Edit: Also this should be under service requests not offerings.

Thanks for the reply mate. Ill be dropping you a pm shortly.
Stupid me, I thought i was still in the requests section. I will be moving this thread now
