I'm just watching a video of LazyMasquerade (GREAT Youtube channel btw and HIGHLY suggest watching his content) and I JUST noticed that there is a story about a member on HF in his video. It is the second story btw but the video is VERY interesting as a whole.

I remember everything about him and I recently just learned about everything that happened with him. Such a crazy story.

Yeah it is fucking crazy how this guy "COULD" of been behind someone's death/hit??

I do remember talking to Nokia a couple of times, (just a couple PM's here and there) and thought he was a cool guy. I guess I was wrong.

When Lazy said. You really don't know who you're really talking too.

And consider where he is from Saudi Arabia which has extremely strict laws against freedom speech, opinions, expression, heresy ect ect.

It could land you in prison or worse, executed

Is it weird that I knew it was Nokia before I even opened the video?

HF is really the place of mysteries, this was a very interesting story to listen to.
