Thread: [\[Official Group\] The Gold Standard - Scavenger Hunt \[Event 7 of 8\]](#)

theDuke - February 24, 2023, 11:00 am

Anyone who participates in this today will receive an extra entry for the grand prize. Will possibly do a drawing for something small for those who participate, but for now just expect an extra entry into the grand prize.

This will be open until 3:00 AM EST tonight.

Our final event, another creative content event, will be posted then as well. It last for 3 days.

THIS EVENT IS NOW OVER FOR THE PRIZES BELOW

And that's a wrap! Congrats to the winners. You will be contacted at the end of the event.

Next Two People

Welcome to the seventh event of [The Gold Standard](#) giveaway. This time, the challenge requires you to act quickly.

Your task is to locate three red items in your household or community. The specific type of item does not matter as long as they are red in color, and you must include your username in the photo.

RULES

- To be eligible to win, members must take a photo of the three red items in a single picture and include a piece of paper with their username on it. This will help us verify that the photo was taken by the member.
- The first three members to successfully complete the task will be declared the winners of the event.
- The event will be open for 24 hours, or until three people have submitted correct photos, whichever comes first.
- Please note that if you have already won two times through the event, you will not be eligible to win again, and your submission will not be counted.
- The red items must be tangible objects that can be physically touched and seen. Digital or virtual items will not count towards the challenge.
- The photo submitted should not have been edited or altered in any way, and should accurately depict the three red items as they are in real life.
- Any inappropriate or offensive content will result in disqualification from the event.

Participating in this event will grant you 1 entry for the Grand Prize. If you would like another entry, visit our main giveaway thread [HERE](#) and leave a reply about why you love HackForums. Reminder that if you have won 2 times, you are not able to win again. Using our official event signature will also grant you an additional entry. The signature can be found at the bottom of this thread.

Tweeted this out. Hope it goes well.

You should have also do a drawing for someone random that does this. Make it last longer, get more entries.

Just in case you use my suggestion....

[theDuke](#) seeing as if I won 2 times already, I can't win the last event, however if I participate does that grant me an additional entry for the grand prize?

And shit, you name it and I'll take a crack at it ?

Glad I got my entry in quick enough. I almost fumbled the bag by not reading the rules entirely the first time around and so going about it incorrectly. Probably could have gotten first otherwise, but I'll take second and still getting an award any day ?

Congrats to my fellow winners! [Eran Koyote](#)

Shoutout to [Mac Miller](#) as well for being the fastest mofo out of us all even though he couldn't win another event. Still a W ?

I love them man, they're way better than Sharpies imo, especially on the job site.

I've never had a Milwaukee Inkzall smear on me or not be able to make contact with a surface. They're like Sharpies on steroids lol.

And oh yeah they're one of those things you buy like 5 of at a time lmao, constantly losing them.

They literally write on everything without smearing. They're awesome. When I'm working, they are all I use to mark things!

Like you said, I buy a few at a time too!

It's pretty nice, got it as a gift way back when.

Red Smoke in the Military 99% of the time is a marker for a MEDEVAC Helicopter to land.

Uhh you sure? Red is used to indicate enemy forces while green is typically used to indicate friendly forces, and then green or purple is used for LZ / MEDEVAC from what I've always understood.

It's unit dependent.

There's no set regulation, or atleast there wasn't when I was in indicating what color smoke you needed to pop.

While overseas your unit will have their own SOPs with how they want everything to operate in just about every situation.

Every unit I was ever in was red.

Yeah that's most likely true, depends on the unit itself and also probably where you'll be operating I'd imagine.

Probably don't want red smoke in Afghanistan with all the sand and would prefer green/something else more visible against the landscape.
