Thread: [\[RESALE RIGHTS\] \\$100K Cloud Credits v4.0 - AWS, Google, OVH, IBM, Azure etc \\$5000+](#)

**?Border?ineExtr(A)** - February 25, 2023, 5:40 pm

Hi everyone, as the title states I'm looking to sell my previous product's resale rights "[\[LIMITED\] \\$100'000 Cloud Credits V2.0 - AWS, Google Cloud, IBM, Azure, OVH \[DISCOUNTS\]](#)" which has successfully sold over \$5000+ on HF alone!!! This product explains 5+ exclusive methods to obtain FREE credits (From \$1000 to tens of thousands, up to \$100'000) from multiple cloud providers, like Amazon AWS, Google Cloud, OVH, IBM, Microsoft Azure. Etc etc.

- This is nothing blackhat, in fact it's completely whitehat.
- There is no chance for this to be saturated or to be closed.
- No need for fraud, SE, hacking etc - no need to purchase anything other than some minimal upfront costs.
- The credits duration depends on the method and the providers, mostly it's up to 2 years.
- You can do it yourself, show it to your friends, sell accounts to other people, sell the product itself, create accounts then sell the server/other features etc etc. So many uses for this, and for me personally I've been able to generate profit on each account.

Several members reported varying degrees of success depending on the time & effort they took to implement the steps described in the product, and I personally had great success with creating several accounts in the 5-6 figures range from different cloud providers (check my thread for proof). I did update it recently so it contains even more methods now, however I don't have much time to dedicate to selling it, supporting members etc. since I'd like to dedicate more time to creating, promoting & supporting new products (like my signature).

So that's why I've decided to sell the RESALE RIGHTS of this product. I believe it should be fairly easy to make your investment back and then some, with the method + sales + account sales etc. so there are multiple revenue streams involved in just 1 product. Other than that, there are several ways that you can & increase the value of the product, for example:

- 1) Create an ebook that explains how to create a website/platform on cloud (very easy, lots of tutorials and sources on HF too)
- 2) Create an ebook that explains where to sell accounts with credits (Fiverr, marketplaces, etc)
- 3) Create a custom template/resource for one of the cloud providers with a custom project (if you are a developer)
- 4) If you are an agency or working in the IM niche, you can give this away to your customers
- 5) Work with businesses that need more cloud resources, resell it to them for a profit
- 6) Create a video course, sell it on Udemy (warez disallowed) or other marketplaces
- 7) Adapt the mining guide for other cryptos

etc etc. The possibilities are literally endless when you're dealing with 5-6 figures IN FREE CREDITS!

What you will receive:

- 1) The latest updated version of "[\\$100K Cloud Credits v4.0 - AWS, Google, OVH, IBM, Azure etc](#)" + My AWS ETH mining guide (outdated, not working anymore but it was a huge selling point for the

product so it might come in handy) [\$500 value]

2) Resale rights anywhere (I will not sell this anymore) [\$3'000 value]

3) All marketing assets (thread design + signature) - no .PSD templates sorry, but I can put you in touch with the original designer if you'd like. [\$250 value]

4) List of previous customers from HF (optional) - if you want to send them the updated version, or upsell them other products etc.

5) BONUS 1: My support, to answer your questions and help you take ownership and maximize your profits [\$1'000 value]

6) BONUS 2: ! copy of "Adwords Balance Glitch - UNLIMITED \$300-\$500 balance accounts" [\$500 value]

The price? Only \$2000 for this insane value!!! You'll make your money back in just one account or a few copies sold! (I'm also willing to entertain slightly lower offers, as long as they're sensible and the difference in price is negligible, not considerable).

EDIT: Got a firm commitment, raising the BIN price to \$2500 because of a lot of interest. Still available for a few more days only, get it while you can!

Let me know if you have any questions, either here or via PM. Payment via crypto only (all cryptos accepted), no refund, no middleman (sorry but the risks on this deal are too high - I am willing to consider a MM deal under specific circumstances with the right trusted members, but it has to be worth the risk). Otherwise, start a contract below and purchase right now.

[contract=tid]Start Contract[/contract]

P.S.: If you are interested in the resale rights of the method, but want to read it first, I can sell you a copy for \$200 and it will be discounted from the resale rights price later.

**Michaell\_** - February 28, 2023, 10:03 am

Interested - Message you on Discord

**Bear** - February 28, 2023, 10:42 am

Are you charging \$2000 just for the knowledge of the 5+ methods that you know of?

What happens to the resale rights if someone else who already knows the methods and sells here and elsewhere?

**XERO** - March 1, 2023, 2:12 am

Interested bro imma pm u now

**?Border?ineExtr(A)** - March 3, 2023, 1:30 am

Thank you for the interest, I got back to everyone separately. There's been a lot of interest in the full ownership + resale rights of this product, and it looks like the offer will be available for a limited time only - so if you're interested in buying this, you should hurry up and order.

@Bear, I'm sure you can figure out the answer to your questions - and if you can't, read my thread again.

**Flaws.** - March 4, 2023, 6:33 am

Just dropped you a PM, very interested about this

**?Border?ineExtr(A)** - March 4, 2023, 4:34 pm

Thanks for your interest, I answered your questions. Still available for a limited time!

My review for this

<https://hackforums.net/showthread.php?pid=61894545#pid61894545>

This guy reselling public work. Maybe a staff can review his "new" method. Has 2 negative disputes and buyers claim he ran off with money. Be cautious of this member.

This guy reselling public work.

False, like you proved in your thread and my post there.

I've been in touch with pretty much every staff member and never had any issues, I'd be totally down for that. In fact, I'll personally help out ANY staff member that decides to take me up on this offer and I can personally guarantee that they'll end up making thousands of dollars in free cloud credits.

(Mar 6, 2023 08:06 AM)Host Wrote: [\[CITE\]](#) Has 2 negative disputes and buyers claim he ran off with money.

Again, please read my post on his deal dispute thread:

<https://hackforums.net/showthread.php?tid=6186616&pid=61891975#pid61891975>

He is just pissed off that he couldn't scam me lol

(Mar 6, 2023 08:06 AM)Host Wrote: [\[CITE\]](#) Be cautious of this member.

As well you should - for your own good.

Anyways, getting back on topic: This deal is currently reserved for a specific member, thank you for the interest everyone but there is no need to keep this thread open any further.
