Price:

1 build - 300\$ (btc / monero)

Deposit 10 builds - 2500\$ (btc / monero)

Scheme of work:

1. I make a free test crypt for your payload
2. If the goal is achieved, pay for a full-fledged crypt

Sale of source code and training is discussed separately. Ready to discuss sale from 5 BTC

!Crypter Global Update Completed!

Support for x32 and x64 payloads

The cost of 1 crypt is \$300

Scheme of work:

1. Send a file to the crypt
2. Get the crypt, check
3. If everything is ok, pay

P.S.

If you have 100500 detections and a very poor payload, crypting might not help.

FUD is not a guarantee.
