Thread: [Virtual Assistant \(Programing, Python, Java, Content Writing, Social media etc\)](#)

buoy69 - February 27, 2023, 12:05 pm

I'm open to whatever work you have. I can program in Python and Java, having experience coding video game bots. I could code scrapers, bots etc. I can write content, whether that be for an article or a script for a youtube video. And I have experience managing Twitter accounts, so if you need social media account management I can do that to. I am open to anything I can do. DM me with any offers

[contract=tid]Start Contract[/contract]

Check convo, looks like I already sent you a message about a year ago. What I'd be looking for isn't necessarily what I wrote that time, but we can discuss a few things if you're open
