What are the best subreddits for traffic when my account have 500 karma and is 3 days old? I also don't have pics with girl holding piece of paper for verification so I want subreddit without verifications.

With 500 karma and 3 days old account you won't be able to post in any big nsfw subreddits . Just buy aged reddit account with karma , they are cheap

You need more karma, get more or buy an aged/karma acc as member above said.

Google is your friend. Also post content that is relevant to the subreddit you're posting to - that's the key to upvotes :)

How much karma do I need then? If I want to post on big subreddits.

An account with a few thousand karma shouldn't cost more than \$10. It's well worth the investment.
