Jumpy22 - March 9, 2023, 5:00 pm

Hello everyone!

I am the owner of a website called [The Sentinel](#)

- I am looking for advertisers to help me pay for the websites expenses.

The website in it's state right now is not the best but does attract visitors especially from online cyber sec forums

I also recently paid for a site design which will look like [this](#) when the coders finish

My stats this month:
