Thread: [\[FREE\] Torrent Seeding for all members! \[Great for Seeding Ratio!\]](#)

InspectorGadget - March 14, 2023, 11:36 am

Hello everyone!

I am now offering a service where I will seed your torrent(s) for free. This is because I am testing some code for another project and I may as well offer the service.

This is not provided by a generic seedbox so I cannot provide you with estimated speeds but it should be well above 15MB/s.

This would be ideal for people that don't own a seedbox but need to start off a new torrent file. Or people that want to increase there torrent seed ratio on private trackers.

What do I want in return?

- 1) Quick love this post. (Award hunting lol)
- 2) Comment on this post telling me you want a PM.
- 3) Check your torrent once I've added it and advise me of what speeds your seeing by posting in this thread. Ideally this should be done on a VPS with great internet speeds so you don't just report the highest speed your internet can manage. Or check your seeding ratio on your private tracker account if that's your goal.

How this will work:

- 1) You complete the first two actions above.
- 2) I PM you to request a URL to your torrent file.
- 3) I PM you once the torrent is being seeded.
- 4) You complete step 3 from the what do I want in return section.

Terms:

- 1) If your torrent contains malware, you MUST let me know in your PM. I won't reject it but I want to know. Safety and all that.
- 2) No torrents above 10GB - this limit may be increased as time goes on and you are welcome to PM and ask for an exception.
- 3) Only 1 torrent per member for now. This may change later too and exceptions can be made for small file size torrents.
- 4) I can refuse any torrent for any reason.

I am doing this for free, but if you like what you get, I'd always appreciate some bytes being donated to me! :)

Please do not PM me unless I PM you!

Example:

0.2 Seeding Ratio to 2.0+ in 24 hours!

Before:

After:

sticksdev - March 14, 2023, 12:41 pm

Damn, this is might nice of you guys to do this for members. Seeding is quite bandwidth intensive as it is.

QL and +Reped, don't need it atm but still a very good idea nonetheless.

DashPHP - March 14, 2023, 12:42 pm

Agreed with Dyne, an incredible unique service, first of its kind I believe?

InspectorGadget - March 14, 2023, 6:35 pm

Thanks for the nice comments!

I have decided to open this to all members. If the quality of requests is too poor I may restrict this to upgraded accounts again.

?Stark - March 15, 2023, 8:56 am

Very unique service giveaway...

keep it up bro :)

since file size is limited to 2GB, people will request to seed about tv-series and some shows i guess

SecuredNet - March 15, 2023, 9:25 am

Thanks you

out 2023 torrnet speading?

Good point!

I have amended the limit to 10GB.

I have also fully removed point 3 which was:

3) No popular movies, TV shows, Games, Music. Basically if it's already seeding on popular torrent tracking sites, there's no point wasting bandwidth.

I figured if people are wanting to increase seed ratio, these types of torrents may be useful.

DaChosenOne - March 17, 2023, 4:16 am

PM me please, I want a torrent seeded.

Thanks.

jmark7 - March 17, 2023, 11:29 am

Dose this method increase number of seeds/completed downloads artificially?

InspectorGadget - March 17, 2023, 11:41 am

(Mar 17, 2023 11:29 AM)jmark7 Wrote: [\[CITE\]](#) Dose this method increase number of seeds/completed downloads artificially?

It does not spoof the number of seeds / completed downloads. They are real and provide real bandwidth.

Is there any way to spoof seeds?

InspectorGadget - March 17, 2023, 11:55 am

I'm not aware of any way - but im not an expert. I know that some torrent sites do spoof them though.

Using my service will show a higher amount of seeds, and they will be real. So i don't know why you'd want to spoof them lol.
