Thread: [New Threads Search](#)

Omniscient - March 16, 2023, 11:59 am

The link in header for New Threads is now active.

The actual link is function "getdaily" with some adjustments. Please note this shows new threads for past 24 hours, not since last visit or search.

<https://hackforums.net/search.php?action=getdaily>

Because of the new method of Bump for Bytes in Marketplace changing the threads start dateline the New Threads will also show those bumps. This is intentional to help promote Marketplace threads in a search feature with Byte Bumps.

Eventually I may offer thread sticky advertising on some of these quick searches.

Enjoy and thank you.

Cooligan - March 16, 2023, 12:08 pm

Oh this is awesome, been eagerly awaiting the release of this after we got a teaser of it. Coming from someone who highly enjoys using the New Posts page to browse HF, the New Threads page just adds to that convenience/possible interest in what you see.

Also glad to know that Stanley bumps will make the thread appear on the page as well.
Question about that actually:

Will it show the last post from an actual member, or a post from Stanley on the New Threads page after a Marketplace thread is bumped?

Omniscient - March 16, 2023, 12:09 pm

(Mar 16, 2023 12:08 PM)Cooligan Wrote: [CITE](#) Will it show the last post from an actual member, or a post from Stanley on the New Threads page after a Marketplace thread is bumped?
Marketplace Bumps don't make a Stanley post.

Eran - March 16, 2023, 12:15 pm

Looks good so far, pretty practical. Thank you.

Nostre - March 16, 2023, 1:24 pm

I like this idea.

As always, another great addition to HF.

Omniscient - March 16, 2023, 6:11 pm

(Mar 16, 2023 05:52 PM)-Scrub Wrote: [CITE](#) So if I bump my marketplace thread, that thread will now show under new threads?

Yup, it will. Wait till I add a new advertising feature to search.

Cap - March 16, 2023, 6:41 pm

Cool to see this working now. Thanks as usual, Omni.

Komodo - March 16, 2023, 7:33 pm

Hell yea, good stuff.

I was accidentally clicking that button for atleast a week, staring at my screen waiting for something to load.

Omniscient - March 16, 2023, 7:35 pm

Hm...I have to look over this feature again. Not sure it's doing what it's suppose to. It's still sorting by the posts table when it should be sorting by the threads table.

I've got work to do still. :)

Burnzy - March 16, 2023, 7:47 pm

Maybe off topic but is there a time limit in a search tread option? Im trying to find an old one that i know exactly how it is named but it does not show up

Aeowulf - March 16, 2023, 7:55 pm

Awesome, I love it. Thanks for the constant improvements!

Omniscient - March 16, 2023, 8:23 pm

Yes, there are limits in search for time. Try using advanced search and choose the correct parameters.

Biggy - March 16, 2023, 10:07 pm

Another solid feature implemented. Great to see.

Cooligan - March 17, 2023, 4:29 am

(Mar 16, 2023 12:09 PM)Omniscient Wrote: [\[CITE\]](#) Marketplace Bumps don't make a Stanley post.
Yeah I had a brain fart when asking that lol, totally forgot about that fact.

Regardless great work, love the new activity pages.

MightyOne - March 17, 2023, 6:36 am

That's nice!

I love to be able to jump in ater a few days and see only the latest posts and comment on some hot ones.

Cool idea Omni.

Omniscient - March 17, 2023, 9:43 am

Actually not working as intended. I have a lot more work to do on this. I had hope some minor core code adjustments would make it work as I needed but I see that's not happening so this has to be a separate plugin to work as I want.

I'm working on on it.

ItachiUchiha - March 17, 2023, 10:31 am

And I was wondering why that button isn't working. I used to click it every day, lol.

Nice change.

?nxy - March 17, 2023, 11:42 am

Love it Omni thanks for the work

Omniscient - March 18, 2023, 12:55 pm

Alright, got it. But I decided to go with tid instead of dateline. This means that Bumps for Bytes don't actually show up. I made that decision because bumps are so prevalent that it made the New Threads page look bad. The intent of this feature is to see new threads.

But I am working on a concept for advertising directly on all the search pages.

InspectorGadget - March 18, 2023, 4:19 pm

Cheers Omni - been wanting this feature for a while. Already using it!

Omniscient - March 18, 2023, 4:19 pm

I already love it too. Really easy to see the latest threads on HF.

Omniscient - March 18, 2023, 6:09 pm

Dang it. Still not right. It's not doing the other pages correctly, just the first search. Grr...more coding to do.

theDuke - March 19, 2023, 12:30 am

Yeah I just noticed that, first page is working great. Love this search so far, good work!

Charlie Sheen - March 19, 2023, 2:02 am

I've been using it the last few days, and I love it.

Cooligan - March 19, 2023, 2:43 am

Oh man, this is working great now. It's majority just new threads with zero replies, besides the Stanley check-in thread of course.

This will be so beneficial and helpful for me personally.

Game - March 19, 2023, 1:20 pm

This is a nice new feature. What would we be without bugs eh? aha.
