Thread: [I'm looking for spreading partners. Disguise a file as anything with any icon. \(.url\)](#)

Exploit0 - March 19, 2023, 11:17 am

I need spreading partners. Got any ideas where you can send/upload files? Let me know!

The .url exploit is great and you can use a remote icon if preferred. Now is our time to attack!

Let me know if you wanna team up.
