Thread: [Amazon aws \(Normal aws \) Sale 15\\$ each](#)

NormalAWS - March 21, 2023, 10:13 pm

Hi guys

Hello

I sell amazon aws verified accounts. The recipient can use it as they wish.

Unlimited stock

Fixed price: \$15

Important note: Normal aws accounts are not registered to any service, only accounts are opened and left.

If anyone wants, I can give the proxy information to the accounts with the username and password. Since we use special quality ip for each account, the ip addresses are static, so you can enter with the ip address where aws is opened.
