FAQ.2

Will it take me any effort to follow instructions via ebook?

-Proper english and two eyes to follow the images, everything is well instructed.

If i dont earn the first 24hours after set up, full refund?

-Correct, if You dont close Your first day in profit, full refund.

What is the required capital?

-\$300 is the minimum so the Bot can operate with specific settings and coins amount.

Do i need to allocate any amount of time after i finish the set up?

-No, You can only track profits daily/weekly or however You like.

Has the bot gone negative at the close of any day?

-Surely has, but hasnt been the case since 25 of December as far as i know.

Whats the difference between EBOOK & ULTIMATE?

-In ebook, You will need to follow instructions and do it on Your own, in Ultimate i will do everything including the settings for You, chill and watch the profits.

Do i need to send You or Anyone any money?

-Your money doesnt leave Binance account, no need!

Do You operate the bot on Your own account?

-Ofc, why would i miss on free money daily.

Hi,

Can you post proof of the last three months' trades from the bot? Or Binance PNL analysis?

How much leverage is used to open trades?

Thanks
