Thread: [LEARN CCTV HACKING \(TUTORIAL + SOFTWARE\) START HACKING IP CAMS](#)

MrHugs - March 30, 2023, 1:13 pm

Hacking Tutorial, how to become a professional hacker for IP cameras.

- ? You receive a Tutorial for all Requirement softwares.
- ? +7 Softwares to Hack pre-installed from me for you.
- ? +4 Video Tutorial's for every Software (made by my self.)

Hey, I am a professional hacker of CCTV cams

In this guide I will teach all my private methods to start hacking cctv, no public information as webcamxp cams or that shit.

You will get the best credential list to brute force cctv cams, my private software to brute force dahua and hikvision devices on port 8000 & 37777.

A tool to scan and exploit cams to crack the passwords or get a RCE from them

My methodology to find and get ip ranges, and how to target specific citys(hack cams from your own city lol)

My private method to find CCTV cams from schools, hospitals, universities and then crack them
I will show you videos where I explain how to setup the whole software

Pics of the software:

BTC AND PAYPAL ONLY!

(Mar 30, 2023 01:47 PM)shatter Wrote: [\[CITE\]](#) you mean shodan and spray default creds and public rces?Not really

Most of the default credentials dont worth to try, I have my own pass credentials to brute force

And my software brute force the port 8000, you dont have any software that is public who do that.

Port rtsp and port 80 dont worth to brute force, in the port 80 you have proteccion anti brute forcing, and in the rtsp you need to brute force also the link.

Dont think that I am going to sell shits that are public, all of my info about CCTV hacking are private, thats why I am selling them.

I hacked hospitals and the police cameras

I am interested. Check your pm

mayo.artemis - April 7, 2023, 6:37 am

Check your dm thank you <3

MrHugs - April 25, 2023, 12:22 pm

Sorry guys for the too late reply, didnt expect to get people interested, I am in other forums, thats was the reason of my offline
Still selling!
