Thread: [UberEats B4U God Method \(FREE FOOD FOREVER\)](#)

Legendian - March 31, 2023, 8:40 am

Only selling 5 of these, currently 5 people have this method in the world, all 5 run B4U's for food.

The best unpatchable UberEats method, will throw in Uber Rides method too

\$1000 a pop

You'll practically be eating for free for years. This method is not patchable quite literally.

This can't be saturated, but the less people that have this, obviously the better.

Middleman / Escrow will be used at your expense.

Are you giving away any vouch copies? Would love to take one! [warn]

Is it fraudulent? Like, do you steal "money" from anyone?

Also, does it work for specific countries only or worldwide?

Worldwide. You're taking money from ubereats. Driver is not impacted at all.

I got a copy of the UE method from OP (not the Uber rides, can't comment on that).

Overall thoughts:

Seller was responsive and patient. We used an MM on this forum and the transaction was smooth.

The method itself works. I have experience with methods before so I knew exactly what I needed to update in order to order again, and this method had that.

For transparency purposes, there will be an additional purchase required to get the method to work, and some hoops to jump through, but it can be worth it if you order regularly.

As for the claims of this method lasting forever or that only 5 people in the world have it, I'd have to say that just isn't true, as anyone with experience doing UE methods will know that these things will only last for a number of months at most before it gets shut down.

Disclosure: I only tested the UE promo code method as I don't like doing refunds. I'm sure this is the main selling point since failed payment methods are the biggest hurdle in these situations.

These are just my own thoughts. Feel free to purchase and use at your own discretion.

Conclusion: I do recommend it since it works.
