Back when reputation rating was a thing, Omni made a plugin that repfucked every member back to -10 popularity which was fake and made me shit my pants. Did he come up with anything new this time?

DashPHP - April 1, 2023, 4:07 am

Damn I don't ever recall this happening. When was it??

{ RadioActive Hack } - April 1, 2023, 4:10 am

I don't remember the April fools rep-fuck. I only remember the real Rep-fuck button. I never got target, but many of my lounge troll associates did. Poor guys. Rip.

I do indeed remember this, I panicked a little bit there lmao

The only memory I recall is that Omni released a skid.php or something of the sorts, making those black hats all horny thinking they found a shell lmfao.

I wonder what year this thing happened and I wonder what the great Omni got for us this year?

I remember this as I think I had 1k+ rep at the time and I did indeed panic ?

Yeah I remember the rep fuck April fools one, I believe there was an FBI prank one year to irc? Always nice to see HackForums doing something in spirit for the little holidays

Marvelous - April 1, 2023, 8:47 am

I remember the rep fucked prank. I just got rep fucked before that so it brought me up to just -10. Lmao.

Eran - April 1, 2023, 9:47 am

Wasn't there back then but if I remember correctly he did a little something last year, like an error when you tried to get on the site.

Cap - April 1, 2023, 10:16 am

I do remember this. I think it may have been 2013-2014 area. Man, I logged in and just about had a heart attack.

Omniscient - April 1, 2023, 10:18 am

There is nothing funny anymore about the world. Humor is dead.

bronzegods - April 1, 2023, 10:31 am

Yes I remember that. Reputation was actually a big thing at that time. It was a scary but fun prank.

Basically yes, I wake up grumpy. And laughing at what exactly? The world going to shit? I literally woke up today to see a text that my grandma died last night.

Zexo - April 1, 2023, 11:22 am

I remember this back in 2016

Stoke - April 1, 2023, 1:01 pm

I was hovering around the top 15 highest repped on site back when it meant something. I remember hitting 1.1k in March and getting the absolute fkn life ripped out of me when I saw it reset on April Fools.

Good easier times.

ZuGgY - April 1, 2023, 1:11 pm

Yes, I do remember that. Has it been that long already since? :O

Bastille - April 1, 2023, 1:33 pm

Wasn't there at this time, when did it happen ?

oRequiem - April 1, 2023, 1:38 pm

All I remember is the april fools fake bans. I don't remember the fake repfucks

Hmm I do not really remember that, well, maybe a little bit.

But the rep reset was the best one haha
