Thread: [Embeds for Bio Box](#)

oRequiem - April 3, 2023, 12:37 pm

I remember about maybe a year or 2 ago, embeds for images & youtube videos were working in the Bio Box. But it seems to not be working anymore. Not sure if it's a bug or if it's intended to be like this. I've noticed it for a while and after checking today, I decided to post this incase it needs to be fixed.

So its a hackforum bug if I got this correct? thats annoying

flavoral - April 3, 2023, 1:12 pm

Use the following mybb code to add YouTube links:

Code [yt]LINK[/yt]

Oh the default embed code doesn't work for bio box, only that one currently?

Thanks for this. I thought maybe other users could see the video on my profile but I couldn't. Fixed it now.

Code [video:https://www.youtube.com/watch?v=fOOHKYE5YU4]

That's not working mycode what you had.

Code [video=youtube]https://www.youtube.com/watch?v=fOOHKYE5YU4[/video]

[Video: <https://www.youtube.com/watch?v=fOOHKYE5YU4>]

Ah okay, I just did it through the buttons at the top for the bio box.

Omniscient - April 3, 2023, 7:11 pm

Seems normal to me. Do you have any extensions for HF? I just don't think you clicked the correct button.

Just HFX, but I clicked "Insert Video" and clicked on youtube then pasted the https youtube link and it automatically does it.

It works for posts, just not the bio box. I saw someone reply saying they had the same issue until we tried the [yt] code.

It's possible HFX does something different on the bio page and it doesn't translate the video code properly.

Ah maybe. I thought I'd bring it up because I didn't think HFX would effect the bio box at all. Thought it was just an unsolved issue.
