Looks like we're getting Minecraft legends and ghost wire on the game pass later this month. Ghost wire looks really good am also excited for Minecraft legends , been grinding the regular version out lately...

Ghost wire was very fun, but it becomes repetitive quickly due to how mobs work in-game. I found myself picking up tons of mini quests and forgetting what I was supposed to be doing to progress the story line. If you play it let me know what you thought of it.

Definitely trying it out when it's on there, I hop games a lot durning the day so could be a perfect fit for my rotation. I'll keep you updated
