Will be renewing this contract with this provider. (Apr 6, 2023 12:31 PM)Pentatonix Wrote: [\[CITE\]](#) Update: I have tried this product out. The library is quite extensive and there are over 30k VOD's available to use. The connections are fast and I experienced little to no lag for the entire duration of my trial.

I'd recommend using Masquerade over a few of the other IPTV's that I've used from competing sellers. Some channels were very fast and responsive while others got stuck in buffer cycles and wouldn't connect, and some shows/movies were a little slow to load at times. OP put this down to my connection which may be the case as we've had some issues here lately, but on the whole it seems like a decent service with a large range of available channels and pre-recorded content.

I shot you a contract for a 24 hour vouch copy. I will update this post with a review.

Hey I am interested in this service. I wanted to discuss about the price match offer you provide. But I cannot message you yet as I'm new to this forum. Is there anyway I could contact you to discuss this?

Have bought a month of this to test it out. Websites stuck on awaiting payment it looks like but will give it some time to see if it sorts itself out.

Edit: it doesn't appear to have sorted itself. Been 2 days now if you could contact me ASAP please.
