Not only is he reselling models from another server for a 1000% markup, he doesn't stand by his "14 warranty". I was sold a model that did not want to work with people in the US due to time difference. KingstonZ said he would replace, after a few days heard nothing and asked for a refund and now he has stopped answering.

Just a warning to others, find the OnlyModels telegram he's reselling from and save yourself the trouble

Damn, that's a steep amount. Hopefully you get this resolved.

Always spend a few minutes doing a bit of research before dealing. Anyways, sorry for the loss. Maybe once [KingstonZ](#) reads this, he will handle this dispute.
