That is a beautiful blue egg you have there. Plus another that followed and is ready to be put in lotto afterwards? A lucky duck you are. Best of luck with getting plenty of tickets bought for them both!

I priced this Sapphire Blue Egg too low. Only 19 bytes and it doesn't have many more tickets sold than a blue egg priced at 50 bytes!

Give it time! We're still days out from it ending so there isn't as much urgency to jump in on it yet. More time between now and then for people to build up more bytes that they're willing to part with on the lotto too.

I pretended to be for a long time because back when rep mattered I'd get accused of "pretending to be a girl to get rep," if I said anything that let it slip. I'd get all this hostility, so then I just let everyone think I was a guy to avoid that hostility.

Thanks and someone just messaged me today to say another post I made on that same subject was quoted in some study, which was a bit of a shock. lol

Better get in on the Sapphire while you still can guys. 19 bytes is really too low for a Sapphire and I'll price my next one higher.
