Review: VOUCHED!

I contacted SEO for Telegram Members to boost my group, after seeing his post on another thread. We immediately contacted and he always responded promptly.

I went first and already have 200 members from 36, will be expecting the full amount within a week. This is great because if the real members notice a significant jump, they may find it "shady".

The bots also have functionality like reacting with emojis to your posts.

10/10 I would recommend this if you want to build a reputable telegram group.

These can react to posts? I assume they show as 'seen' then in the post too?

I would appreciate a couch copy I might also cop in the future posting to come back to this. GLWS

bronzegods - April 13, 2023, 6:51 pm

I'd take a vouch copy to test this. Thanks alot.

I received a vouch copy review from the user SEO after posting here to test the services he was providing. As mentioned already not only did he message back very promptly but he was very professional when we spoke. The service was started expeditiously and I'm very impressed. The users looks like real telegram users and their times online always change which is very nice. They all add over a period of a set amount of time so it doesn't look suspicious, for example instead of 100 members getting dropped in your group at once.. it would be 100 members over the course of

say 4-5 hours, so it looks very legitimate I definitely vouch for the user SEOs services and look forward to working with him in the future! Huge vouch!

VOUCHED:

I asked for a vouch copy and he responded very quickly. Within a few hours the member were added. The members look legit with some being online.
