Thread: [\[VPN - No DNS-AUTH-TRAFFIC LOGS\] Fast, Anti-DDoS \(Free -> Paid\)](#)

BigDap - April 15, 2023, 2:51 am

Speed

The speed of the server you select is nearly un-noticably slower than your normal home-connection, depending on distance from the server. Wireguard and enhancing technologies that speed up traffic by up to 400% over "openVPN-tcp" connections.

Anonymity

There are no DNS logs, traffic logs, authentication logs.

The server uses Wireguard (ChaCha20) OR OpenVPN (AES-256), your choice. Bitcoin is accepted as payment method - logs are not stored (according to the owner, network engineers)

Protocol

WireGuard

OpenVPN

Free version

1-10 Gbit pipe availability, unmetered, unlimited bandwidth - DDoS protected

This is a brand new company, reseller of a good product and has a fast, responsive, knowledgeable team of network engineers, web developers, software developers working non-stop to create the next big VPN. Come join us today and find out why our servers are the best.

How to order
Bitcoin
PayPal (Balance, Bank etc)
Stripe (Credit Cards)
Cashapp

Post below that you are interested, i will DM you - we will talk about what your needs are, free or paid up to you - i will contact the owner and get a config file for you, make your payment and i will send the config over to you. You can use OpenVPN connect (3 is recommended) GUI to connect to the VPN. Payments in bitcoin are delayed of course and can take hours (or minutes) to arrive.

If you are not comfortable dealing with me as a middleman for any of this i will send over the sales teams information - I work for them, as an advertiser and a middleman. The choice is up to you, it is however easier to deal with me directly!

Technical support

If you are not "vpn" aware or have good knowledge of OpenVPN Connect i can walk you through it, if you need further help or your config file doesn't work, for whatever reason, or you run into any issues i will get you in contact with the network engineers, owner, tech team - whichever is needed - ASAP

I also am a technical support member, basic, and will be assisting how i can before escalating to a higher tier member

Affiliate program: For every person you bring to us that makes a sale we will give you 10%, and if they pay monthly you'll earn 10% of that cost.

Amazing services with super fast vpn 100% recommend

justidk — 03/22/2023 5:41 PM

good good no lag while getting hit all good soup

@CEO | David and I are married (edited)

BreadDoge — 03/23/2023 11:12 AM

10/10 can do whatever with it and no lag

CVC Kenny — 03/25/2023 3:15 PM

10/10 speed is one of the highest i ever seen

ACT1VE — 03/26/2023 4:49 AM

10/10 speed is good even with openvpn i was in a lobby with booters and didnt even get touched (edited)

anak — 03/26/2023 12:40 PM

10/10 this service is worth an advertisement as the speeds are actually really good especially the USA ones and I'm in the UK also has great potential to become a very known service, the VPN works on Disney plus Amazon all that good stuff get a plan see for yourself

SliceThemNoodles — 03/26/2023 1:44 PM

10/10 One of the best VPN providers you can find, they're legit and have great support. As for the VPN itself, good and reliable speeds, the protection is even better! Works on multiple apps and perfect for gaming if you need protection! Plus the great selection of regions you can choose from.

BVGxSickFoo — 03/26/2023 2:56 PM

10/10 speed is good no probs

greet — 03/27/2023 12:03 AM

10/10 fast service and respectable sellers

Die — 03/27/2023 6:26 PM

10/10 Amazing service fast and respectable customer support

NATE23F — 03/28/2023 11:21 AM

10/10 terrific service fast vpn

ImJustBerg — 03/29/2023 6:48 PM

10/10 | Strangely enough, I get better speeds while using Nanite than when I'm not! Best free VPN server Ive used in a while! (edited)

Kurupted — 03/29/2023 6:57 PM

10/10 One of the best VPN brothas on the planet these guys is genuine and has better tech support than Indians. Vpn is gucci and got daT sonic speed, the protection is like a diamond wall yk. This stuff like a tank with a Ferrari engine (edited)

Ecstasy. — 03/30/2023 4:59 PM

This VPN service has remarkable fast speeds, irrespective of the user's location, and exceptional ddos protection security. I highly recommend trying it out in its free mode to experience the impressive speed and security firsthand. It's a perfect 10/10 personally (edited)

ky. — 03/31/2023 10:25 PM

Has to be the best VPN services out there. Has speeds that even the most popular vpns can't even serve. Ddos protection gives out everything you need as well so don't even have to worry about something going wrong. Recommended for gaming and even regular use! (edited)

Short bus | Carti — 04/01/2023 11:03 AM

10/10 vpn, The support, servers and speeds are 100x better then any of the big companies selling you shitty subscriptions. I suggest you buy this vpn over any other competitor out there

??OG|_-|KUSH?? — 04/06/2023 12:02 AM

..

10/10

Levity — 04/11/2023 2:47 PM

was testing to see if this VPN hosting was poor and uses reseller hostings for servers but for the free servers they use tempest personally dont like path but good looks to this VPN host 10/10

Nub Cow — 04/13/2023 12:13 AM

Used to get doxed on omegle like every 2 seconds, but not anymore

shumalua — 04/14/2023 7:40 PM

vpn works like a charm and he was very helpful
