Thread: [Beginner Hacking Training](#)

_vxt - April 16, 2023, 2:40 pm

Hello.

I'm willing to train 2 - 4 beginner hackers or people that want start learning how to to hack.

We'll learn the basics of HTML, JavaScript, SQL, PHP (this is so you'll understand how to exploit HTML injection, XSS, SQLi, command injection, etc.; web vulnerabilities), bash, command prompt, networking, cryptography, OSINT, general cybersecurity, then offensive security and jeopardy-style and boot2root CTFs.

But most importantly and the main reason why I want to do this is to condition you to have the Unit 8200 hacker mindset (or at least my understanding of it)

brudi44 - April 16, 2023, 2:54 pm

Hey i see you post i m very interessted can i join in team my friend ?

Dread.Reaper - April 16, 2023, 3:00 pm

Teach me bro.

I love to learn

The basics? I feel as if you've been hacking for 5+ years already

(Apr 16, 2023 02:54 PM)brudi44 Wrote: [\[CITE\]](#) Hey i see you post i m very interessted can i join in team my friend ?

Add me here: [deleted]

Decode it using ROT13 because I can't post links [warn]

Me? Naa man Im just a new guy

PurpleMoss - April 16, 2023, 4:02 pm

Can you teach me? I'm interested to know what you know.

About the 8200 mindset, sure

About the basics—I'm sure you're beyond that

How do I hack Roblox?

_vxt - April 16, 2023, 6:01 pm

I know you're being sarcastic but, first, you need to change your User Agent in accordance with Roblox's Bug Bounty program. Secondly, stay within their scope. I'm pretty sure *.roblox and dev.roblox are in scope. From there, content discovery; use subfinder to collect subdomains. Use httpx on those subdomains to see which ones are up. Third, you can use waybackurls to find discreet endpoints or you can fuzz those directories with ffuf. After this recon, now it's time to pick a target from your list of URLs or sub domains. I like to start with separating each functionality from each other, i.e., search bar, commenting, anything that takes user input and test for XSS. You could try testing for CSRF at the login, IDOR or SQLi at and endpoint that has a number, etc

Dread.Reaper, please. All I'm trying to do is help a few beginners the way I wish someone would guide me when I was starting out. Also, just search for sites that will exchange your labor of taking a survey for robux

You can join. Look at the above comment and start decoding

Dread.Reaper - April 20, 2023, 8:30 am

No offsite communication is allowed.

And I think you know why too.

volins_lin - January 16, 2026, 10:10 pm

Hello, are you still recruiting for training? I just recently stumbled upon your forum.
