Looks fake.

- "Source code" makes no sense. It's the source code of a .NET obfuscator?
- Video in readme links to a Youtube video with obviously bottled comments
- Links in the description of the video link to a heavily detected binary:

<https://www.virustotal.com/gui/file/b541a4ac2908216c0eedf696973e7f10657eb535e4148c3ed5b3e113c4b43143/detection>

Definitely links to malware:

<https://www.virustotal.com/gui/file/3f3ea7ec8be85813bb1e4666aacdbdab7e2fc92ab94b4d4d081bdc4fb434321/behavior>

Drops 4 files and runs some powershell script. Adds stuff to startup.

More analysis:
