Thread: [Bypassing Password on a .photo site \(zenfolio\)](#)

jonjones23 - April 21, 2023, 2:35 pm

Hi all,

Was curious if there was a way to bypass a .photo site. For example, "Kasko [dot] photo" has all his hidden galleries protected behind a password and was wondering if there was some way to bypass.

Thanks so much!

Dread.Reaper - April 22, 2023, 5:25 am

<https://www.kasko.photo/>

Where are these galleries you speak of?

All I see is an image carousel with images that are not clickable.

jonjones23 - April 22, 2023, 1:20 pm

They're hidden galleries. You can get a sense of some of them when you view the wayback archive (URL portion) on the site. too many to list but interested in the /mariah one specifically. Thanks!
