You saw a vehicle on the road that got into an accident and fled. If you get a licensed number plate, you can track down entire details.

Get information on any random person living down your lane or neighbourhood.

This information is limited to authorised transport departments only.

Use cases is unlimited. But it's depends on creativity and vision.

- You can start business.
- can contact high profile ppl. Coz you'll get phone number also.
- can Start insurance company.
- start service

impress your girls or friends. Basically limitless. All about capacity
