Thread: [Need a Simple Gif Avatar Resized](#)

N1ghtm4re - April 25, 2023, 1:37 pm

Can someone make me a 125x125 gif avatar that works on HF out of this image:

I've tried, can't get it for some reason. I've done it before though, so.

It probably has something to do with this:

The maximum dimensions for avatars are: 120x150 pixels.

So maybe it's resizing it.

Lemme make it smaller than 125

Here, try this one:
