I am still looking for the 4.0 break. I am only able to pop in here every now and then so if u have the files and then pm me. I'm willing to pay if I have to but have to know that it works before I do. I have the Linux .chroot for the 3.25 I dunno if that's the same type of thing I have to do for the 4 or not but someone please pm me and let me know how to get ahold of u asap... I can't send PMS yet but I will get back with u....

No one has the 4.0 break available that can demonstrate that what they have works before any exchange of funds?

Papaterps727 - June 8, 2023, 10:22 pm

I've had 2 people email me but nothing of worth yet, hoping to get some proof that they are legit and really have these programs.

Big_chew36 - June 12, 2023, 3:27 pm

I have the 4.0 hack and the JPay WiFi hack... Not like the old WiFi hack, this one allows you to do everything... Surf the web, download, stream, online gaming!! Get @ Me

turborotary87 - June 25, 2023, 10:34 pm

could you message me ccardwellwrx@gmail.com

The WiFi hack is supposedly dead statewide (FL). Rumor here (Madison) is that FDLE got wind of it.....

That's my telegram account. The 4.0 break is being done but you have to use the hexa flash app. Unfortunately its not cheap. There are a couple guys working on the brom bypass so we are able to use Linux and mtk. Message me in telegram and I'll point you to the right people who have what your looking for. Be very cautious dealing with anyone asking for money up front. We have escrow groups that are setup to protect against scammers.

I got the 7.1.5 if needed.
