Thread: [Ultimate Texas Hold'em Table Game](#)

Anyone play this before?

Last year I went out to Vegas and a buddy got me hooked on this game. Made around a grand or so my first time. Just got back from Vegas this year, and was down over \$600 on that damn game.

It's addicting when you win.

Yep addicting when you are on winning side but very frustrating when you are on losing streak ?

The table game? Or the regular card game?

I've played this game before and had mixed experiences. Made around a grand my first time in Vegas but lost over \$600 on it recently. Winning can be addicting!

That's the game that I play the most by far. It's the trips bonus that makes it so addicting.

I love playing texas holdem, but don't play in the casinos anymore.
