Thread: [Do you prefer long or short anime?](#)

Deany - May 6, 2023, 8:31 am

Tbh I would rather much watch series that are shorter in eps. What about you?

padrino - May 6, 2023, 11:02 am

Yeah I'd go short tbh. Makes it more concise, and easier to fit in a ep when you're super busy.

Only long anime i like, 52 episodes is Cooking Master Boy. Great anime.

Yes generally i prefer it to be between 13 to 26 episodes long

Another exception i make is for Yuyu hakusho

Other than that, i dont like long anime. Epecially naruto, one piece, etc. I dont like extreme lengthy animes.

Yeah that makes sense. If it's a good series and long it will be fine. ?

patrickness - May 16, 2023, 12:04 am

Short. I feel like it flows better and is easier to watch

Same, long feels like such a chore

VKNS - May 16, 2023, 7:48 am

Longer anime series.

If I can get really invested into a Character/Story I tend to enjoy it more.

Only exceptions for me would be Blue Exorcist and Tokyo Ghoul.

AiDenti - May 16, 2023, 9:26 am

Give me a complete story in 12-24 episodes. If it's a quality story that warrants it, up to 60 episodes is okay to me. Anything longer is gratuitous.

It's really the filler arcs or too many episodes with no clear drive to the main story what killed Naruto Shippuden for me. I understand straying sometime make you feel immersed true masterpieces usually never get to finish tho or only have 1 maybe 2 season anime.

I can get behind Naruto and Naruto Shippuden filler, because to me it's character development. Without the filler, it's just fight scenes. Honestly, I wish the fight arcs were faster. I don't need to see an hour of some evil people casting a jutsu while the leaf village ninjas stumble over themselves.

????Bro i laughed way way too hard at this a episode max 2 maybe 3 for a special or sum but you aint lying goku vs frieza OG 3hr plus like 30 mins power ups all that but in reality that fight was 5 mins

Vector11 - May 27, 2023, 1:46 pm

12 episodes for the norm
24 episodes for good shows
Many seasons for masterpieces

drnunez233 - May 29, 2023, 1:32 pm

I like long animes since in this way you can enjoy the full story

Interesting. That's a good take on it.

JustForFun21 - June 5, 2023, 5:59 pm

Watching a shorter anime which knows when it's time to stop is imo the best way to enjoy the medium!

I don't really understand what you meant by that tbh...

Piplup - June 5, 2023, 8:14 pm

For just about all fiction, I like long form. I love deep, invested, ever-growing universes. The "always a bigger secret/threat/savior" trope is most of the joy of the experience IMO.

Beherit - June 13, 2023, 12:17 pm

If it's an ongoing story that I've been watching for the last 5+ years, then long is tiresome.

Waited 4 years for Attack on titan Season 2.
4 years for Re;Zero season 2.

Short anime like 13-26 episodes are easily digestible imo.

Tiresome, it do be like that.

OnGuard - August 7, 2023, 6:36 am

medium time range btw 40 mins, not too short 20 mins, not too long 60 mins

zyra - August 12, 2023, 12:15 am

I don't mind when it goes a few extra seasons. But man I can't handle any of the older content that has over 300+ episodes and just take forever to get through. 24-50ish seems like a sweet spot.

Yes lol 300 eps would make my head pop off

clovaks - August 12, 2023, 7:44 pm

I feel like although it's great to be able to enjoy a long series on a great anime, the short ones actually get to the point each episode. And in my opinion, the Animes are of much better quality with not only fights, but key details as well. Only very few long animes that I have seen such as Naruto and somewhat Black Clover (Somewhat lacking in animated detail/plot advancement), they live up to what the short animes bring to the table along with being long and entertaining.

Bennywest - September 4, 2023, 6:27 pm

How longer how better I think for me :)

Syndicate - September 5, 2023, 12:18 am

I won't even attempt to watch anything that has more than 200 episodes to be honest. I started watching Black Clover recently cause my best friend has said that it's gotten really good but I still find myself struggling to watch it ?

I think like 25 episodes per season is a good way to go for me. So I guess it would be short.

blackeagle93 - September 5, 2023, 5:34 am

Depends on the Anime i guess, the better it is the longer i want it to be
Generally though unfortunately really good ones end up only having one season

capozito - September 7, 2023, 1:25 pm

i prefer the shorter ones :D

DashPHP - September 7, 2023, 2:13 pm

Haven't watched anime in so long but when I did they were typically 20 minute episodes and I enjoyed that.

Deany - September 7, 2023, 3:36 pm

Thank you all for your replies. Make Anime Adventures great again.

Cammy - September 7, 2023, 4:40 pm

I have no strong opinion one way or the other. Shorter series are easier to get into but longer series really pull you in if it's written well

A great series with 110 episodes would be [Ginga Eiyuu Densetsu](#)

A great series with just 26 episodes would be [Uchuu Senkan Yamato 2199](#)

greggdowny1 - September 10, 2023, 9:47 pm

long animes like summer time rendering where they have a full story that makes u wanna cry by the end of it

Was it a very sad show? Might watch it

Lurkbin - September 17, 2023, 8:23 pm

Long because when I have time to watch it ill finish the anime in like 2 hours.

mztyy - September 18, 2023, 9:30 am

Short animes are better if you have not much time

Melody11 - January 8, 2024, 2:21 pm

I prefer short animes, because then I can watch more than one in less time

Zalbai - January 12, 2024, 9:04 am

Best short anime I've ever seen.

1. Deathnote
2. Elfenlied
3. Ajin

4. Seraph of the End
5. Psychic Detective Yakumo

At Deathnote I can't understand why no one recommended this masterpiece. I think everyone must watch this short series in their life before they die.

All of the ones I have mentioned are worth seeing and can only be highly recommended. The thing I like most about short animes is that you're hooked by each episode and can't wait for it to continue. You're drawn into it so magically that you feel like you're in this world, you live with it. Each episode is action-packed and is simply breathtaking. Of course there's a matter of taste here, but if you just love anime, then you can easily connect with it and never have enough because it's just awesome.

Short animes that I haven't seen yet but would like to:

- Mirai Nikki
- 91 days
- Baccano
- Shiki
- Kekkai Sensen

zloisrizz - January 12, 2024, 10:50 am

long for sure because I can binge then

Jamika - January 18, 2024, 3:42 am

Differs acc to being amusing or not, if boring it should end shortly for sure

the only anime I know that is long is One Piece in my personal opinion

I prefer shorter animes in general with one piece being the exception.
