Account Information:

All connections/accounts like twitch, Xbox, PlayStation, etc, will be unlinked so you can link yours.

I can either give you the account with a fresh email on it butt wont be able to change for 30 or 90 days. or after you purchase the account, I can allow you time to change everything to your own email and personal info.

The username has a username change as well if you'd link to change the name.

Basically you can change all the information to secure the account and make it yours after the payment is made

Hit me up or post if you have any questions regarding the account. I will use middle man service if anyone feels uncomfortable going first. I want to get rid of this asap I no longer play and want it to go to someone who would play on it you could even resell it seen other accounts with the same skins but not on one account with less characters go for more than what I am asking for.
