I have learned a thing. Never lend money to someone here at Hackforums.
Please staff. Investigate this. He dont deserve a place here in the scam reports with his rep and
ub3r status

Vouch for dieko :/

Hope you get outta this.

good luck

He got scammed by a user trying to frame me and now an Ub3r has attempted it.

I agree 100%.

And regarding what Tank had provided a link to: his thread about "breaking the circle".

Even so: what significance could there be in the PM system being used for transactions?

He did speak with him via the PM system already, to which he provided screenshots of, and I am betting the Staff are able to view since they are, indeed Staff.

I fucking hate all these pubescent teenagers in middle school/beginning high school whom are occupying the L33t/Ub3r statuses of HF.

They are the ones whom are statistically shown to scam people out of their money. Probably due to the fact that they are just in their teen years, and as every adult with experience with teenagers: teenagers lie frequently.

Although there are some older L33ts and Ub3rs here whom are respectful, kind and honest with their trades and sells.

Those are the ones whom should be Ub3r and L33t.

Not these punk kids.

I told you 4 times dieko..

I got hacked, my msn, my paypal everything.

He hacked It all, and scammed peoples, and yes It's sad, but I cant deal with It.

Thats why you shouldnt trust peoples on a fucking hackforum.

I'm sad that this has happened, and I feel bad for you.

But he spend the moneys againe and now my paypal balance Is on 11 DKK (1,5 \$).

As I said, I'm sorry for this situation, but I cant do anything about It, all my accounts were hacked, and thats the risk that I'm taking for being on a hackerforum.

I wont use anymore time on this happening, as I cant pay the moneys back whether I want to.

If you want to bring It to the highest level then you can ask omniscient to check the Ip's that logged In.

He will see another Ip on my account (i dont know which one as I dont know who the fuck hacked me).

As I said.
I'm sorry dieko.
