Sage - May 13, 2023, 12:18 pm

This pdf file has everything you need to know about face verification how it works and how you can bypass it.

It works 2023

Quick Love and +Rep and then:

The pdf file for face bypass verification is on attachments.

If you don't have enough bytes to get the attachment, pm me for the link.

LINK DOWN WILL REUPLOAD SOON ONCE I FIND IT ON MY HARD DRIVE LOL

Looks like an awesome tutorial!

Exactly what I need for my OSINT research topic.

But unfortunately I can't PM you, sir, due to some kind of forum restrictions.

Could you, please, PM me? Or may be there is some other way to recieve this information?

I'd greatly appreciate your inputs on this matter.

MiguelSanchez - September 18, 2023, 5:56 am
Hey.

I was thinking the other day if I could get through this with fake faces.
I lifted my mates face from a Facebook photo and was able to turn it into a highpoly model
(I had done it in the past but it was exporting to SVG, now it's .obj + .mtl)

Could something like this work?

<https://www.youtube.com/shorts/6WlhHDHtJW0>

From memory you just look at the camera turn the face to the right, and then stop when it turns green.

My method requires a depthmap that matches the face shape but you could just get a single depthmap and generate many appropriate faces from your favorite GAN the depthmap as an input.

It's very interesting. Really a source of information. But you have to take your time and use "complicated" tools for novices. Explanations and software are for pros.

Thanks again for the quality tutorial Sage
