Top things so far this year I have come across for you to check out:

Host your own ChatAI on your computer!

<https://www.youtube.com/watch?v=nVC9D9fRyNU>

Share your GPU processing power and have multiple people using one desktop computer!

https://www.youtube.com/watch?v=XLLcc29EZ_8

Generate your own images using Stable Diffusion!

<https://github.com/cmdr2/stable-diffusion-ui>

Text to speech on a whole new level!

<https://beta.elevenlabs.io/>

Excel spreadsheets on a whole new level!

Money making ideas based on these and others:

Look at fields where coders are less likely to have cross over. Such as animation and art. Look for their biggest problems and try code solutions such as plugins.
